PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science postgraduate with knowledge in SQL, C programming, Python, frontend design, website design, Inkscape, Blender 3D, and basic automation technologies. Passionate about learning new technologies and developing creative technical solutions. Capable of working effectively in team environments with good communication, problem-solving, and adaptability skills. Seeking an opportunity to begin a professional career in the IT industry and contribute to organizational growth through continuous learning and dedication.

EDUCATION

M.Sc. Computer Science – Thiagarajar College		2026
B.Sc. Information Technology – Lady Doak College		2024
HSC – Mahatma Montessori Higher Secondary School		2020
SSLC – Amali Matriculation Higher Secondary School		2018

KEY SKILLS

Technical Skills : C programming, Python, MySQL, HTML, CSS, PHP

Tools : Blender 3D, Inkscape

Soft Skills : Teamwork, Communication, Problem-Solving, Time Management, Analytical Thinking, Adaptability Other

Skills : Content Writing, Digital Marketing, Android Basics

WORK EXPERIENCE

Freelance Website Developer – Upzora EdTech Company

- Worked as a freelance developer for Upzora EdTech Company.
- Designed and developed the company's official website: www.upzora.in
- Contributed to frontend design, website structure, and user-friendly interface development.
- Assisted in improving the online presence and digital accessibility of the organization.

PROJECT

Smart Restroom Management System (Mini Project)

- Developed an IoT-based smart restroom monitoring system to optimize resource utilization and maintenance efficiency.
- Implemented real-time monitoring and automated alert mechanisms for improved user experience.
- Enhanced operational efficiency through smart automation and data tracking.

RestoreNet: AI Enhanced Image Integrity Preservation and Lossless Recovery Framework

- Developed an AI-powered framework focused on image integrity preservation and lossless image recovery.
- Utilized advanced image processing and AI techniques to improve image restoration quality and reduce data loss.
- Designed the framework to enhance digital image reliability and recovery efficiency.
- Contributed to research and implementation of intelligent restoration methods for secure and accurate image reconstruction.

CERTIFICATIONS

- AI Generative Models – OpenWeaver
- UiPath Automation Explorer – UiPath Academy
- UiPath Studio Family Training – UiPath

- Robotic Process Automation – Go Be Great
- MongoDB Basics – ICT Academy Learnathon
- Computer Vision Onramp – MathWorks
- 2D/3D CAD Modeling of Building Environment – Bentley
- Modeling Structure with Analytical Modeler – Bentley

DECLARATION

I hereby declare that all the above information is true to the best of my knowledge.
